JONES & SCULLY

Miami, 42, Florida

JONES and SCULLY, INC.

Growers and Hybridizers of Fine Orchids

2200 N. W. 33rd Avenue
Miami 42, Florida

August 1960

An Open Letter to Our Customers:

The alert Florist knows that his business can be no better than the quality of the stock he offers to his clientele. He realizes that with today's keen competition he must keep a wide variety of Ornamental Plants in his shop to meet the ever-increasing demand. He also knows that it costs no more to deal with a first-class firm!

BOB SCULLY

We have supplied Ornamental Foliage Plants to the Trade since 1945, and have built our business and reputation on the **QUALITY** of the Plants we sell and on our **INTEGRITY**. You may rest assured, therefore, that mail orders will have our careful attention, and that you will receive *only* **QUALITY** plants when you buy from us.

You are cordially invited to visit our modern nursery at your convenience, and we hope that we may have the pleasure of serving you.

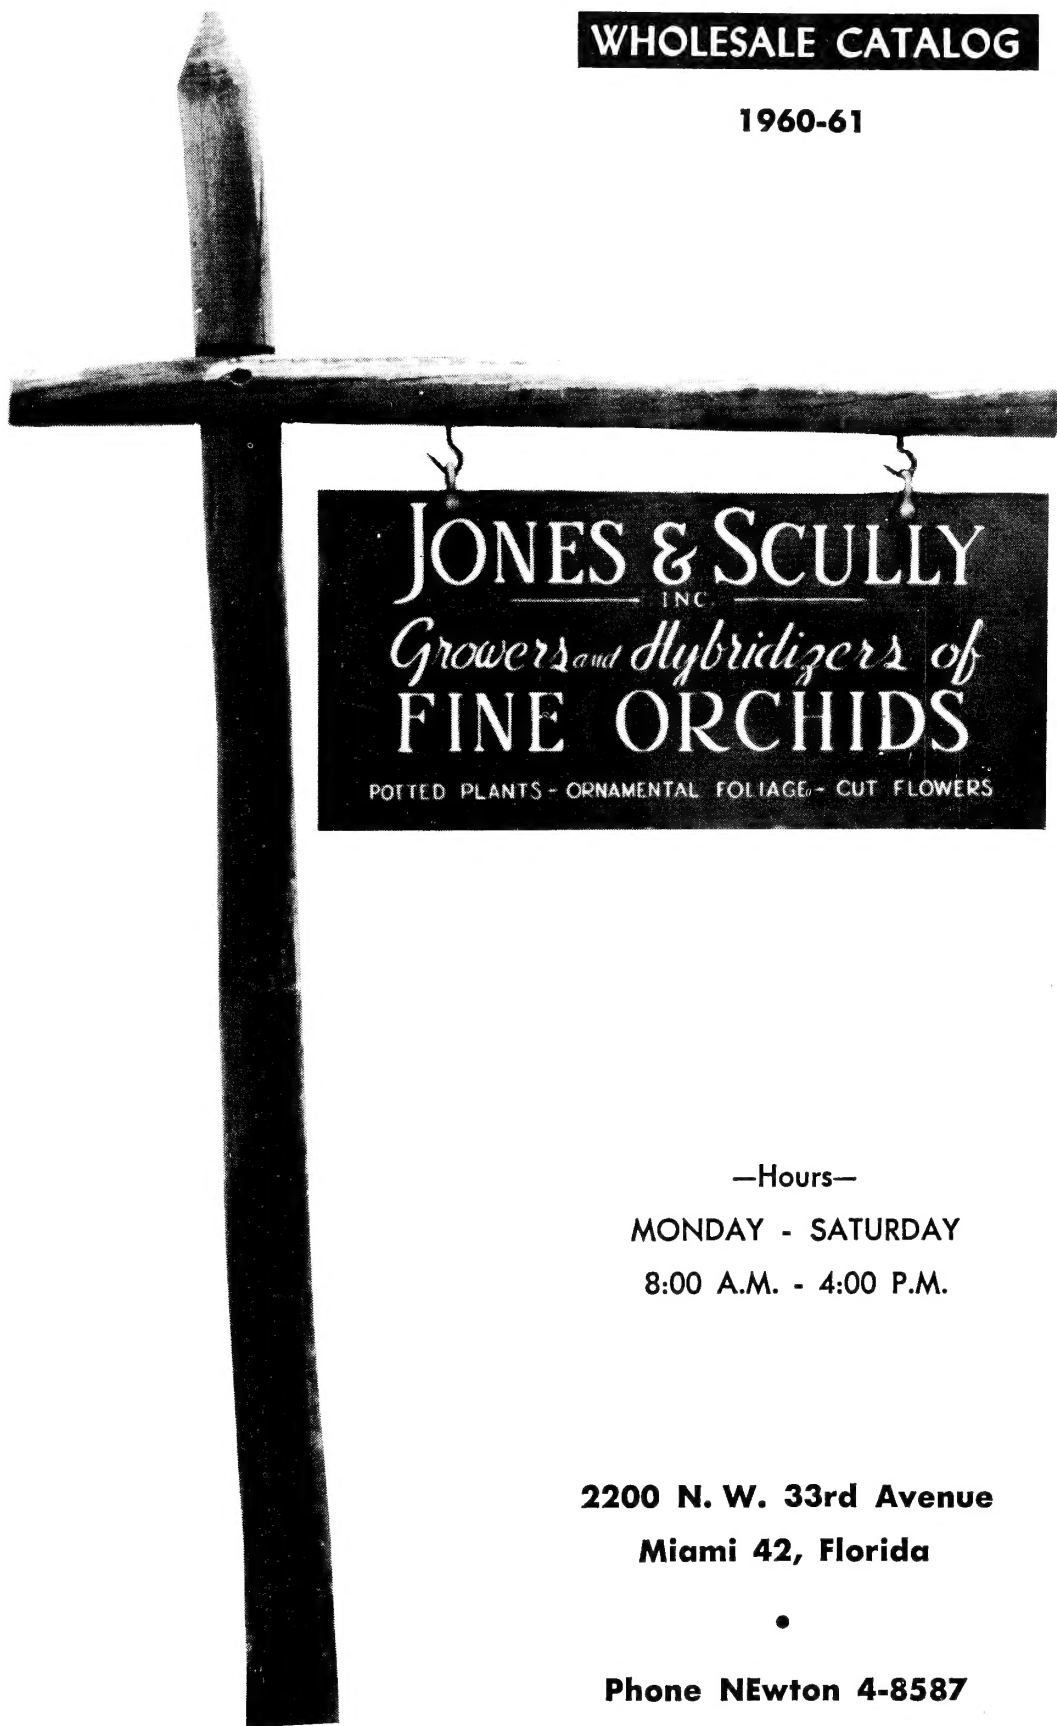

Sincerely yours,

JONES & SCULLY, INC.

DRACAENA GRACILIS

—LIMITED QUANTITY—

Since we introduced *Dracaena gracilis* to the Trade several years ago, it has become so popular for interior decoration that we cannot begin to supply the demand. It takes many years to grow a branching plant to a height of 5'-6' and each plant assumes its own branching habit which gives it its individuality. The pictures on these pages are intended only to give you some idea of sizes and branching habit of a few representative types. Other than those with single stems, we cannot guarantee any two plants to be identical or exactly as pictured.

HEIGHTS, quoted in parentheses, ARE APPROXIMATE.

SUPPLIES

POTTING MATERIALS:

During the past few years, several new potting materials have found a place in orchid culture. OSMUNDA has been the proven potting material and has been used universally—almost exclusively—during the past fifty years. We do not feel that the new potting materials used today—Fir Bark or Tree Fern—are superior to Osmunda except perhaps for certain genera under certain climatic conditions. If one is not having success with the culture of a given genus, then it would be wise to try a different potting medium.

FIR-BARK and TREE-FERN are certainly much easier to pot with than Osmunda, and this fact, alone, will win them many users. Use of these two potting media makes it possible to keep up with the potting and leaves more free time to enjoy one's collection.

In the fir-bark and tree-fern categories, we believe that VITA-BARK and MEXI-FERN are the two best products of their kind on the market today—far superior to the competitive products.

VITA-BARK

VITA-BARK should be moistened before using because it is easier to handle and will respond much better to watering after potting. We recommend the removal of all the Osmunda fiber from orchid roots before potting in VITA-BARK. Repotting in VITA-BARK plants which have been in bark is a simple operation because the old bark can be shaken from the orchid roots without damaging them; with osmunda, there is no alternative but to pull the old fiber off the roots while exercising great care not to damage them.

Recommended Usage

VITA-BARK SIZES

POT SIZES

1 1/2" x 3/4"	for 8" pots, or larger (Especially Vanda & Dendrobium)
3/4" x 1/4"	for 7"-8" pots
5/8" x 1/4"	for 4"-6" pots
1/2" x 1/4"	for 2 1/2"-3" pots
1/4" x 1/8"	for small seedlings

VITA-BARK Prices as follows:

1 to 10 bags	-----\$4.95 each
11 to 25 bags	-----4.25 each
26 to 50 bags	----- 4.00 each

VITA-BARK is packed in 2-cu.-ft., three layered paper sacks—inner layer fortified with polyethylene. Weight varies according to the size of the particles—the smaller the grade, the heavier the bag.

Since the minimum Freight Charge is based on 100#, we suggest that you order at least three bags of VITA-BARK when buying.

We are the Southeastern Distributors for VITA-BARK. QUANTITY PRICES ON REQUEST!

 at Jones & Scully's

STAKING PLANTS

Plants grown in MEXI-FERN or VITA-BARK usually require special staking, and we offer many different styles for the purpose. We can recommend all of them and suggest that you give the different methods a trial then choose the system that suits you best.

RHIZOME CLIPS

(GALVANIZED)

Practical for holding newly-imported or unestablished plants in Tree Fern or VITA-BARK. Easy to use.

Specify 4" long or 5" long

Package of 12 ----- 50c

(not pictured)

FERTILIZING

VITA-BARK and MEXI-FERN must be fertilized to insure good plant growth. Most authorities and experienced growers agree that nitrogen is needed to a greater extent than the other elements which are used in smaller quantities. We recommend the use of KAPCO 30-10-10 Fertilizer. The frequency of fertilizing depends on the season and the plant in question.

We have found a stock solution of 12 oz. of 30-10-10 to 3 gallons of water dispensed through a HOZON (which dilutes the concentrate 1 to 15) to be satisfactory. For a limited number of plants, 30-10-10 may be used 1 oz. to 4 gallons of water and watered directly on the potting medium.

FERTILIZERS:

Atlas Fish Fertilizer -----	4 oz. \$0.39 1 pt. 1.00 1 qt. 1.90	1 gal. \$ 6.25 5 gal. 26.00
------------------------------------	---	--

24"	1.80	1.60
36"	2.28	
48"	2.79	

16" Handi-Reach AND
400 Water Breaker

Siphonex ----- \$2.25

A syphon for application of liquid fertilizer.

Fogg-It ----- \$1.95

A brass fitting to attach to the end of a hose to produce *LOW*, *MEDIUM*, or *HEAVY* mist for syringing plants. Indicate your choice.

SPRAYER:

Fog-Maker ----- 32 oz. size \$9.95

The best small hand sprayer that we know of. Available with plastic container — easily washed and non-corrosive. Easy to use and gives out a very fine spray.

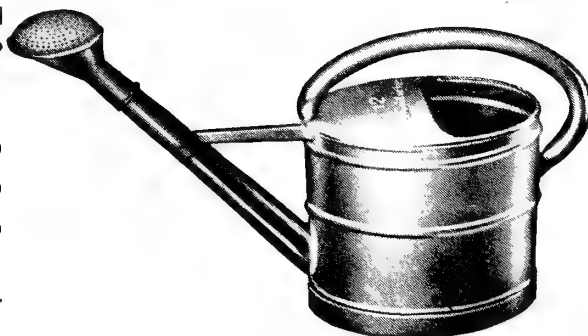

WATERING CANS:

SCHNEIDER CANS are an import from Germany and are standard equipment with all Orchid growers in Europe. It is our feeling that these watering cans have a place for use in both large and small collections, for more attention should be given to individual plant care. The small size is excellent for FLOWER SHOP or HOME use.

1 ½ liters	-----	\$5.85
2 ½ liters	-----	6.85
4 liters	-----	7.95

Made of the finest steel; hot-galvanized for lifetime use.

Schneider Watering Can

PYRALIN POT MARKERS

These heavy plastic markers are ideal for marking prices on potted plants, are indistructible, and may be marked with pencil which can be easily erased. Good for use in either GREENHOUSE or FLOWER SHOP.

Literature

VENEZUELAN ORCHIDS — ILLUSTRATED (Vol. 1) \$15.00
by G. C. K. Dunsterville and Leslie A. Garay

A monument in the annals of tropical orchidology. Probably the first extensive work illustrating with authenticity the members of the Orchidaceae from living material—many of the species being pictured for the first time.

DRAWINGS OF FLORIDA ORCHIDS, by Blanche Ames with
explanatory notes by Oakes Ames (Second Edition) \$4.75

The First Edition of 335 copies was printed from handset type on the press of the Botanical Museum of Harvard University, Cambridge, Massachusetts, in 1947. Most of these were distributed by Professor and Mrs. Ames as keepsakes to personal friends. The South Florida Orchid Society, sensing the need of giving such a technically superior work a wider audience, has had 1,000 copies of this Orchid Classic printed for your information and enjoyment by permission of Mrs. Oakes Ames.

CORSAGE CRAFT, by Glad Reusch and Mary Noble \$4.95

Describes all types of corsage making. Illustrated with photographs and line drawings.

BROMELIADS, by Mulford B. Foster \$2.00

Cultural handbook on Bromeliads.

HOME ORCHID GROWING, by Rebecca Tyson Northen \$6.50

An up-to-date book on the subject of orchid culture from seed to flower.

ORCHIDS AS HOUSE PLANTS, by Rebecca T. Northen \$3.50

In detail, the culture and propagation of the new house plant "The Orchid".

PHILIPPINE ORCHIDS, by Reg. S. Davis and Mona Lisa Steiner \$5.00

A detailed treatment of some 100 native species.

PLANTS INDOORS, by Mary Noble and J. L. Merkel \$6.95

A guide to their selection, care and use in decoration. Well illustrated, also in color.

YOU CAN GROW ORCHIDS, by Mary Noble (Second Edition) \$1.98

A good introduction to orchid growing for the hobbyist.

THE ORCHIDS — A SCIENTIFIC SURVEY,
Edited by Carl L. Withner \$14.00

A full account of the science of orchidology as it is known to date. Each topic is dealt with by an expert—structure and classification, orchid physiology, hybridization, genetics, pests and diseases. Important to all orchid growers and fanciers—amateur or commercial. 625 pages, 144 illustrations.

PLEASE INCLUDE IN YOUR REMITTANCE SUFFICIENT FUNDS
TO COVER POSTAGE; ANY OVERAGE WILL BE REFUNDED.

CONDITIONS OF SALE

1. Orders are filled in rotation—usually the same day or the one following receipt. Advise if your order is urgently needed—we will expedite it to the best of our ability.
2. Prices quoted are F.O.B. Miami.
3. We do NOT make a packing charge except for crating of some large specimens.
4. **TERMS:** Cash with order unless credit has been previously established. To establish a 30-day charge account, please provide three credit references.
5. **Florida residents:** add 3% sales tax on supplies unless we have your Sales Tax Number on file.
6. **SHIPPING:** It is our general practice to make shipments by Railway Express. However, if there is a more economical or more satisfactory service to your area via Truck Line or Air Route, we use these facilities. If you have a preference, please indicate.
7. When ordering supplies or plants which are to be shipped via Parcel Post, please include sufficient funds with your remittance to cover postage—any overage will be refunded. We cannot assume responsibility for losses when plants are shipped via Parcel Post.
8. **CLAIMS:** Any claims for damaged shipments **must be filed immediately with the CARRIER by the CONSIGNEE.** We make every effort to pack carefully, and our responsibility ends when the shipment is accepted by the carrier.
9. Plant heights and lengths quoted are approximate.
10. Prices are subject to change without notice and this catalog cancels all previous quotations. We reserve the right to limit quantities and to withdraw any offering from sale at any time.
11. **NON-WARRANTY:** We, Jones & Scully, Inc., give no warranty—expressed or implied—as to the productiveness of any of the plants we sell, and will not be responsible in any way for the crop. Our liability, in all instances, is limited to the purchase price of these plants.
